THE POLITICAL SCENE AT SHELTON

Editorial

The right to vote is one of the most basic to our American heritage and one we should never take for granted.

The final day to register to vote in the November 4 general election is October 26. If you have not registered, now is the time to do so.

The Young Democrats and The Young Republicans have organized student groups at the college that we hope will be operational long after the November election.

We want our students to be aware of world events and to take part in the political process. By forming strong student political groups, our nation, state, college, and the idividual student with all ultimately benefit.
